**Price:** £0.00

**Date:** 2020-01-07 16:49:54

**Expiration Date:** 0000-00-00 00:00:00

## Description

At Direction, we offer a range of digital photography and video services for print, online, multimedia and digital signage content. Our portable studio is perfect for smaller photo shoots and offers an ideal cost-effective solution. We can visit you on-site and capture the perfect imagery for all of your communications. However, if you're after something very specific or bespoke, we've built a unique working partnership with some of the region's leading photographers. Not only do they keep everything pixel-perfect, but they also bring a much more innovative and imaginative approach to the project. However, all our photography is art directed by us, and we'll always make sure the shot that we get is exactly the way you want it. Whether you are looking for that eye-catching PR image to support a product launch or press release, a corporate video for the next shareholders' meeting or a series of short video clips to sell your products or services online. Call Wayne today on 01202 298258 for more information.
