

VeyorEX

2b Delphwood Dr
Saint Helens, Merseyside WA9 5JE
United Kingdom

Phone: 01744 904743

VeyorEX designs and supplies patented telescopic conveyors that make goods loading faster, safer, and more efficient. Our Bendy Boom system enables same-dock loading of vans and trailers, cuts turnaround time by up to 50%, and reduces manual handling strain. With modular design, open PLC/WMS compatibility, and dual-bay capability, it's ideal for parcel depots and warehouse automation projects. We serve logistics operators and intralogistics integrators across the UK, Europe, and beyond, helping them improve dock performance, optimise labour, and deliver measurable ROI. Website:
